

KING EDWARD IS ON HIS DEATH BED

"His Majesty's Condition Gives Rise to Grave Anxiety," Say the Physicians.

GLOOM OVER LONDON

In the Face of This Startling Emergency Business and Politics Have Come to a Standstill.

London, May 6.—An atmosphere of great depression surrounded Buckingham Palace today. The bulletin describing the king's condition and the statement of the physicians now in attendance, issued shortly before noon, while vague in terms, inspired profound gloom throughout the city. It was generally construed to mean that the outlook is not at all favorable.

The suddenness of the transition from yesterday morning when the king was receiving presentations to the present when it is believed he is critically ill, has shocked the country. For the moment business and politics are at a standstill. The Prince of Wales arrived at the palace at 10 o'clock this morning and entered almost unobserved.

In addition to three physicians who were in attendance throughout the night and are now spending the day at the palace, Sir James Reid and Sir Richard Douglas Powell, specialists, were summoned this morning. Dr. Bertrand Dawson and Dr. St. Clair Thompson. All of the medical party remained within call of the sick chamber. The examination developed that the patient's bronchial tubes instead of being in better condition were more seriously affected after the night's sleep than they were yesterday.

Physicians' Bulletin
London, May 6.—King Edward passed a comfortable night. It was announced this morning that his condition is much the same as last evening. The official bulletin issued by his physicians at 10 o'clock this morning was as follows:

"The king has passed a comparatively quiet night, but his symptoms have not improved and his Majesty's condition gives rise to grave anxiety."

Doctors Dawson and Thompson, physicians to King Edward, were summoned to Buckingham Palace this morning and after a consultation with three physicians who were in attendance throughout the night the above bulletin was issued.

A Great Misfortune

London, May 6.—All the papers this morning make editorial reference to the king's illness.

The Times says: "Feeling of universal regret and sympathy which the news of the king's indisposition will awaken must inevitably be intensified by the reflection that we are entering upon a constitutional crisis of exceptional gravity."

The Daily Mail says: "No sovereign was ever held in such universal affection by his people as King Edward VII. Nothing could be more disappointing than the news of his illness at the present most critical moment in affairs of state, when his moderating influence and supreme tact and experience was so sorely required."

The Daily Express says: "Everything else sinks into insignificance beside this emergency. Controversies cease, politics disappear. The king's subjects are united in fervent prayers for his early and complete recovery. God save the king."

Marriage licenses issued. Jackson Bros., jewellers.

CONDITION CRITICAL

LONDON, May 6.—A Bulletin issued this afternoon by the king's physicians says his Majesty's symptoms have become worse during the day and that the king's condition is now critical.

ROYAL FAMILY SUMMONED

London, May 6.—All the members of the royal family have been summoned to the Palace. The bulletin on the king's health was issued from Buckingham Palace at 6.30 p. m. It was signed by Doctors Laking, Reid, Powell and Dawson.

"IT IS OVER," SAYS THE KING

London, May 6.—"Well, it is all over, but I think I have done my duty."

These words fell from the lips of King Edward, waking from an interval of unconsciousness this afternoon. His Majesty's condition is declared critical by the attending physicians.

Gloom has settled over the city and provinces following the announcement of the king's precarious condition. "Prayers by the Church and people of England are desired on behalf of His Majesty, King Edward in his grave illness."

The rate of insurance offered by Lloyds against death in the event of the king's death was raised sharply following the issuing of this morning's bulletin. Sixty guineas per cent. is demanded to insure against losses in the event of death within a month. The earlier morning rate had been fifty guineas per cent.

London, May 6, 8.10 p. m.—It is reported among the Palace attendants but not confirmed, that His Majesty is not expected to survive more than two or three hours. Home Secretary Churchill has been summoned to the Palace.

King Has Choking Spells

London, May 6, 8.15 p. m.—The king is experiencing choking spells which affect the heart, recent symptoms are of the gravest character.

CHURCHES MUST UNITE

Co-Operative Spirit all That Can Save Them Says These Clergymen.

Chicago, May 6.—The co-operative spirit is all that can save the church, according to the ministers of various denominations who participated in the "fellowship" meeting yesterday in connection with the fifty anniversary jubilee of the Hyde Park Presbyterian church.

"We are looking at the church as a large army, with each congregation doing its share to contribute to the welfare of the whole," said Dr. Butler. "While each denomination has its own problems, the chief work of all lies in our common interests."

The Rev. H. L. Willett of the University of Chicago advocated the union of all Protestant churches. Other speakers were Joseph E. Paden, mayor of Evanston, and the Rev. A. S. C. Clark, pastor of the Second Presbyterian church of Evanston.

The death occurred yesterday at the isolation hospital of William Wyllie, aged 14, from scarlet fever.

His Majesty, King Edward

London, 9 p. m.

The king's condition at 8.40 was very grave.

Death May Come Tonight

London, May 6.—The announcement that no further bulletins would be issued this evening gave the impression that the king was not in extreme danger, but the news following within the hour that all the members of the Royal Family had been summoned to the Palace was taken to mean that death may come tonight.

Great Crowd Grief Stricken

London, May 6.—The Prince and Princess of Wales left the Palace this afternoon. The Prince lifted his hat as they drove through the great throng which received them in respectful silence. The Princess held her handkerchief to her eyes.

His Sister in Tears

London, May 6.—The Duchess of Albany left the Palace just before 8 o'clock. She was in tears.

CHAPMAN IS GOING BACK

Negro's Extradition Cannot be Denied Now.

MRS. MATTHEWS IS ILL IN BED

She is Under Surveillance by a Matron and a Man From R.N.W.M.P. Barracks.

James Chapman, the self-confessed murderer, and Mrs. Lenora Matthews, whom he implicated in his confession, were both re-arrested last evening on new warrants charging them with murder.

These new warrants were made by Constable General Dr. J. E. Jones of Winnipeg, who arrived in the city yesterday for the purpose of securing the extradition of the couple.

Chapman appeared in the District Court at 2.30 last evening, and was remanded until next Thursday. Chapman, who is at present awaiting trial on a charge of perjury, was brought in from Fort Saskatchewan yesterday afternoon. He does not appear to be at all worried over the turn affairs have taken.

The warrant placing Mrs. Matthews under arrest was served on her last evening as she lay on a sick bed. The woman has been ill ever since the trial for extradition and has been confined to her bed, the strain proving too much for her nerves. At present she is under the surveillance of a matron and a constable from the barracks.

There is no doubt but that the necessary extradition papers will be granted by the court this time. Under the code of international law murder is one of the offences that are extraditable. It is not necessary to prove the murder charge. All that is necessary is that there be affidavits and depositions from the place where the crime is said to have been committed. These papers are now on the way here from Washington, and as soon as they arrive there will be nothing to prevent the granting of the papers.

MEN WANTED WIVES

Police Searching Matrimonial Bureau Found Many Applications.

Jefferson City, Mo., May 6.—J. A. Campbell, a health farmer of Morgan county, and his daughter, Mrs. Mabel Addison, were held to the federal grand jury here today under \$10,000 bonds to answer a charge of conducting a fraudulent matrimonial scheme. Search of Mrs. Addison's rooms brought to light more than 400 letters from men in all parts of the United States, Canada and Mexico. Several of the letters had contained sums of money ranging from \$5 to \$50 for a wedding outfit.

POLICE WERE AFTER THEM

Prominent Business Man Took Another Man's Horse.

TOOK A FRIEND FOR A DRIVE After he Got Back From St. Albert he Found That it was a Mistake.

A prominent insurance man in the city had a high official of the company which he represents visiting him yesterday and partly by business and partly on pleasure decided to take a drive out to St. Albert. He telephoned a livery stable for a horse and buggy. A few minutes later seeing a conveyance of the description he had ordered standing in front of his office, he stepped into it and drove away, both men enjoying the drive immensely, quite unconscious of the fact that they were being pursued by the police on a charge of horse stealing.

Quite innocently this prominent business man took a private party train. When the owner came along and failed to find his conveyance he at once reported the loss to the police. They in turn telephoned the R. N. W. M. P. and a man was sent from the barracks out to St. Albert. This man passed the buggy on its way home, but seeing the prominent insurance man and the high official in it never occurred that these were the gentlemen he had been sent out to find.

It was not until he got back to the city that the innocent offender found out his mistake. The livery stable refused to take the horse back, claiming that he had never seen it before. Still mystified, the insurance man called on the police, who told him the whole thing was explained to him. He did his explaining, too, and it was his last that anything will come of the unfortunate mix up.

FELL FROM WALK, IS SUING CITY

Action Brought by Mrs. Evans was Heard in the Supreme Court To-Day.

The evidence for the plaintiff in the case of Evans vs. City of Edmonton was heard this morning in the Supreme Court. Mrs. Evans is suing the city for damages, on account of injuries received through falling off the sidewalk at the corner of Ninth street and Victoria avenue, while it was being repaired.

It appears that there was a difference in levels of 15 inches, where the sidewalk ended and the crossing began, and Mrs. Evans when returning home one night in November last, did not see the drop, which caused her to fall, thereby sustaining serious injuries.

Dr. MacDonald, in giving evidence, said that he found Mrs. Evans in great pain and had to immediately administer morphine. The injuries were such that an operation would be necessary, and Mrs. Evans would be confined to bed some considerable time afterwards.

Several other witnesses were called, and considerable emphasis was laid on the fact that the ground under repair had no railing guarding it, and no red lights burning to warn passers-by.

The evidence for the defense will be heard this afternoon.

Yesterday the Church of England was named \$200,000 against the City of Edmonton, in the sum of \$100,000 was specified as the sum to be paid in settling the case of the church in Strathcona.

This sum had not been paid and the City of Edmonton was compelled to take action in the courts.

SIR ERNEST GOMING HERE

Shackleton will Deliver a Lecture in Edmonton.

HERO OF THE FARTHEST SOUTH

Visit of Especial Interest in View of his Decision to Stay in Canada.

Sir Ernest Shackleton, the hero of the Antarctic, is to visit Edmonton in the near future. J. W. Ward, secretary of the Y. M. C. A., received word to the effect that this morning in a telegram which announced that the explorer would give his famous lecture on his South Polar expedition in this city on the 27th of this month. The lecture will be given under the auspices of the Y. M. C. A., and arrangements have been completed over Sir Ernest's name on that night.

Shackleton is making a trip through Western Canada, and will lecture in Winnipeg, Brandon, Regina, Calgary, Edmonton and Vancouver. The visit of this intrepid explorer is of particular interest in view of the fact that he has announced his intention of ultimately living in Canada, and engaging in northern exploration and surveys in the little known north country.

It was in 1908 that Sir Ernest started on his trip to the South Pole that has since brought him fame, and knighthood.

The expedition wintered on Ross Island, at the western end of Ross's great ice barrier, about 80 miles from the pole. The southern party, under the command of Sir Ernest Shackleton, left the quarters on October 29, 1908, passed Captain Scott's farthest south latitude, 82 degrees, 17 minutes, on November 26th and continued the journey southwards over the ice barrier to the top of the great bend of the coast of South Victoria Land necessitated the ascent of a great glacier leading up to the top of the plateau. From this point they continued the journey at an altitude of between 10,000 and 15,000 feet until on January 9th, the limit was reached in latitude 88 degrees, 23 minutes south. They were then 113 miles from the pole.

The winter quarters were reached again on the 19th, after an ascent of 12,000 feet, during which the explorers had covered 1,208 statute miles. For the greater part of the time the men were living on short rations. In spite of that, however, they performed Herculean tasks, the ascent of the glacier alone being a feat of remarkable daring.

The winter quarters were reached again on the 19th, after an ascent of 12,000 feet, during which the explorers had covered 1,208 statute miles. For the greater part of the time the men were living on short rations. In spite of that, however, they performed Herculean tasks, the ascent of the glacier alone being a feat of remarkable daring.

FIVE YEARS IN PRISON

Sentence Imposed on Man Guilty of Attempted Murder.

Nelson, B. C., May 6.—At the assizes of the jury heard in a case of guilty, with a recommendation of mercy against J. Wayson, charged with the attempted murder of Frank Ferrace, Riverview, tried and heretofore secretary of the miners' union, who was suffering from delusion.

Chief Justice Hunter sentenced Wayson to five years' imprisonment, saying that although Wayson was sane, he believed that he understood the nature of the act he committed. Chief Justice Hunter says Wayson's sanity should be investigated.

READ DIME NOVEL AND SUICIDED

Woman got as far as the Second Chapter and Then Tried to Kill Herself.

Toronto, May 6.—Her imagination fired by "hot stuff" in a dime novel, Mrs. Mary Ann Evans, of 123 Erie street, Riverview, tried to end her life yesterday morning in the kitchen of her little home. She used a sharp razor, but it did not cut deep enough to sever the jugular vein in her throat. A dime novel, "A Fatal Dose," by Fred M. White, lay on the kitchen table. She had evidently read as far as the second chapter, which was entitled "The Desperate Hour." She may recover.

THE WEATHER

Forecast.—Western provinces, fine and warm.

It will be easy for you to select your spring suit or overcoat if you call at Kelly & Moore's.

\$100 FOR A WORD

Theatre Manager Wants a Substitute for "Vaudeville."

Chicago, May 6.—"Vaudeville" as a word—has come into disrepute, according to C. E. Kohl, owner of the Majestic theatre, and he seeks assistance in coining one that more appropriately, in his opinion, will designate the performances at his playhouse. For this purpose he offers an inducement of \$100 for a word—\$50 more than ex-President Roosevelt is said to receive per word for his stories of the African hunt.

Students in public and parochial schools and universities are eligible to compete in this contest, which closes at midnight next Saturday.

Vaudeville is defined by Webster as "lively satirical song; dramatic entertainment interspersed with such."

"This," says Mr. Kohl, "does not apply to describe present day entertainment commonly called vaudeville."

Some words already suggested are: Starodrum, stellarium, starostum and stardrum, from two French words, etoile, meaning star, and scum, meaning house.

Rushing Grain to Mexico.

Montreal, May 5.—On May 31, the period for sending grain into Mexico by Mr. Vernon Bedford last night it was given a most creditable rendering.

LONG WANTED YOUTH FOUND

Arrested This Morning on a Charge of Horse Stealing.

WAS TRACKED INTO THE BUSH

Detective Followed Tracks in Dust of the Trail and Found his Man.

After tracking his man all last evening, and from dawn, Detective Sergeant Smith, of the C. N. R. M. P., this morning caught and arrested William Kelford, alias William Kay, wanted in Calgary for nearly a year on a charge of horse stealing.

Although but a youth, Kelford is well known to the police. It is alleged that he stole a horse in Calgary district last July. It was on the 10th of July, 1909, that a warrant was issued for his arrest, but by that time he had disappeared, and until yesterday he has managed to elude his pursuers from the police in a very skillful way.

It was just the other day that a young fellow went down to the barracks, and told how a man by the name of Kelford had tried to pass a worthless check on him. Sergeant Nicholson was put in charge of the case, but he might be located his man over in Strathcona. It appears that the youth had been living with a lot of women in some little time. The couple had started out into the bush, and the detective caught them this morning by following their tracks in the dust of the trail.

"They were just having a little breakfast when I reached them," said the detective this morning, "and I had had nothing to eat for a good many hours, and I had my breakfast right there."

Kelford will be taken down to Calgary this afternoon in charge of a constable from the Calgary barracks, who arrived this morning with the necessary papers.

SITS AT KEYBOARD, FOLLOWED SLIGHT

Can Sit in an Armchair in London and Drop a Boquet in Paris.

London, May 6.—T. R. Phillips, a Liverpool engineer, claims to have invented the means of controlling and directing aerostats by electricity transmitted electrically.

He gave a demonstration at the London hippodrome today with a 20-foot Zeppelin airship and showed his ability to raise, lower, drive, stop and turn it at will by the manipulation of the keyboard of a transmitter. Mr. Phillips claims the principle is applicable to man carrying airships and aeroplanes, but primarily is intended for aerial torpedoes.

"I can sit in an armchair in London," he says, "and make an airship drop a bunch of flowers in a friend's garden in Manchester, Paris or Berlin, with equal ease. I can make it drop explosives wherever I like. I believe it will abolish the existing methods of warfare. I have offered the invention to the British government, which will inspect it soon."

CONCERT WAS BIG SUCCESS

"Ballad of Clamphornden" by Chorus and Orchestra a Triumph.

THE THIRD FESTIVAL IS ENDED

Alberta May Announce Itself a Musical Province with Edmonton the Centre.

Alberta may confidently announce itself a musical province and Edmonton may with equal confidence lay claim to being a musical centre, both claims being based upon the great success of the third Alberta Musical Festival closed last night. The work of the chorus and orchestra in the singing of Sir Ernest's "Ballad of Clamphornden" was in itself sufficient to establish this claim.

The musical centre of the province is itself one of the composer's most successful numbers on the programme was the singing of Sullivan's "The Long Day Closes" by Mr. Jackson White and Mrs. H. G. Turner of Edmonton, the winning tenor, who sang "The Trumpeter," by Dis. The other soloists were Mr. H. G. Turner of Edmonton, the winning tenor, who sang "The Trumpeter," by Dis. The other soloists were Mr. H. G. Turner of Edmonton, the winning tenor, who sang "The Trumpeter," by Dis.

The "Great Chorus Ladies' Trio sang Spicker-Brahm's 'The Little Dutchman.' The All Saints' Church quartet, the winning male quartet, sang excellently and made one of the best numbers on the programme. The All Saints' Ladies' Quartet sang Schola's "What the Chimney Sang." The full male chorus sang Lloyd's "A Wet Sheet and a Flowing Sail," and was away behind Mr. Hanby's male chorus, the parts no being nearly so well balanced.

During the evening His Honor, the Lieutenant Governor, presented the trophies to the different winners and congratulated the contestants on the great success of the festival. The festival, he said, had now passed away beyond the experimental stage.

They Don't Want to Vote

Hamilton, May 5.—The local council of women in Ontario is delegates to the national council which meets in Halifax next month to vote against the proposition to extend the ballot to women.

Porcupine Gold Ore

Toronto, May 5.—It is stated that the results of the assay of the first shipment of ore from the Timmins, McMartin syndicate properties in Porcupine show \$20.25 in gold per ton.

Parizian Detective Discovers Criminal

By Remarkably Clever and Persistent Work.

Paris, May 6.—M. Hamard, chief of detectives in Paris, has accomplished one of the cleverest pieces of detective work in recent criminal annals. He has discovered the whereabouts of a poor street girl, Eliza Vannamie, whose atrocious murder had baffled the police for six weeks. The girl's head was found in a sewer and subsequently her hands, feet and other parts of her body were discovered in different places. Hamard, with the vaguest clue, doggedly searched the houses and finally found the key to the girls' room in the baron of an ex-convict, named Ferdinand, who had recently escaped from the penal colony in French Guiana. When confronted with the evidence of his guilt Ferdinand broke down and confessed to cutting up and disposing of the body, but asserted that the girl had died from natural causes, in his arms.

FRIDAY, MAY 6, 1932.

THE PROPOSED RADIAL AGREEMENT

Edmonton cannot afford to offer any factions opposition to the proposed arrangement with the Interurban Railway Company but at the same time care should be taken against its being a source of future trouble.

The construction of radial lines in different directions is bound to mean a great deal to the city. Although testimony has been offered by the experience of American cities to the advantages which are bound to accrue from the opening up of easy communication with the surrounding districts, it is not to be believed that such a thing not only with most of its own state, but with large parts of Illinois, Kentucky, Ohio, and Michigan. From that city eastward it is possible to travel continuously by electric line a distance of no less than 250 miles. From Detroit one can travel 75 miles to the west, 65 to the north and 45 to the south. To these and other cities the radials have brought immense business development and there is every reason to believe that similar results would follow in Edmonton. Up to the present this city has not reaped the advantage that it should from the rich territory that lies close at hand. The merchants should be doing a much larger trade with the country, and housewives should have better facilities for securing produce from the farms.

The municipality is not prepared to go into the radial business itself and should therefore make the best bargain that is possible with the company which has shown sufficient faith in the future of the city and district to make the venture.

There is at least one respect in which the agreement now before the council should be improved from the city's standpoint. The arrangement by which the radial cars will be allowed to travel over most of the existing lines of the city for the purpose of picking up customers is likely to prove a nuisance, particularly when the traffic on the streets becomes congested. It is, so far as the Capital has been able to learn, contrary to the practice which has been followed elsewhere. In other cities where the radial idea is well developed, a terminal is established at a central point. In Indianapolis it is in the very heart of the business section. In Detroit it is at a point, taking First and Jasper as the centre of Edmonton, equivalent to the present market square. From this the cars run out of the city by the most direct routes. It would be no great hardship for the company to be required to establish such a terminal in Edmonton and have all its passenger traffic out of the city originate there.

In American cities there is an element which is anxious to see the radials stopped at the city limits. For instance, when Mr. Stewart Lyon, news editor of the Toronto Globe, was investigating this problem some months ago, City Solicitor Baker, of Cleveland, had this to say:

"These big inter-urban cars, weighing between twenty and thirty tons, are nothing but a nuisance on our streets, and I'd like to see them all stopped at the city limits. The people who come into town on them would suffer no great hardship if they had to transfer to an ordinary street car at the limits. These huge cars pound our pavements to pieces."

Mr. Hally, the city corporation counsel of Detroit, urged against allowing the radials into the city, that traffic was increasing beyond the capacity of the streets to take care of it. But, while quoting these opinions, Mr. Lyon noted that they were not those of the majority of the people, who were willing to stand the inconvenience of having the cars on the streets approaching the terminal for the sake of avoiding the necessity of a change at the city limit. As between two evils they chose the less. Their advice to Edmonton under the conditions that the city is facing in connection with this agreement would

unquestionably be, if we are to trust Mr. Lyon as an investigator, to allow the cars to run into the heart of the city, but not to let them pass over any more streets than was absolutely necessary.

It is true that a clause is inserted to provide for a change when traffic becomes congested. But in case of a dispute as to what constitutes congestion, which would be inevitable, proceedings will have to be taken, and we can see no reason why we should not have from the first the same arrangement for handling the traffic as exists elsewhere. To allow the radial cars to run along Jasper avenue would, it is evident, be of very decided advantage to the company in that it would be relieved of the necessity of purchasing property for terminals at a central point. But this is a saving which it should not be allowed to make at the expense of our streets.

Another matter to which too close attention cannot be paid is the regulation of freight traffic. In this connection we have much to learn from our neighbors to the south. The question is a large one and will be dealt with in a later article.

The arrangement for a rental of the city lines to the interurban company is a good one. The city is safeguarded against the possibility that this franchise will simply be used to keep other companies out by the provision that ten miles must be in operation by June 1st, 1931. The agreement is not subject to cancellation or modification till the end of 25 years, which is a reasonable term.

METEOR AND EARTHQUAKE

Bring Death and Terror in Costa Rica.

Managua, Nicaragua, May 6.—Cartago, Costa Rica, has been destroyed by earthquake. Fire-breathed people are dead and fully that many are wounded. Half the houses in the city have been destroyed. Hundreds of men, women and children are homeless.

The first news of the calamity reached here in despatches from San Jose, which is 13 miles northwest of the

stricken city. Martial law has been proclaimed and the soldiers and police are having the greatest difficulty in maintaining order. Although other parts of Costa Rica have been undamaged, the greatest excitement is said to prevail throughout the republic tonight.

Two hours after the first shock was felt in Cartago an immense storm passed over the Costa Rica-Nicaragua frontier, leaving a tremendous track for about ten seconds. This

peculiar phenomenon caused great fear among residents of the rural districts. Reports have been received from various cities that fire Central American Republics that earthquake shocks were felt at about the same hour Cartago was destroyed by fire. Nicaragua, the shock there was for more than three seconds and was rather severe, although no damage is reported. Several towns along the coast have reported that windows were broken by the shocks.

GREAT IMPERIAL CHOIR

Canadian Musician is Organizing Empire Day Concert in London.

London, May 5.—The imperial choir of 4000 voices, representing forty choral societies of London, is to make its debut by inaugurating the official opening of the festival of empire and pageant of London on the afternoon of May 24th, in the Central Transept of the Crystal Palace. The choir will be conducted by its organizer and founder, Dr. Charles Harris. Each of the forty choral societies are being prepared in its own separate district by its own individual conductor, and Dr. Harris is holding sectional rehearsals of one thousand voices each in North, East, South and West of London. Finally, the whole choir will gather together for grand rehearsal at the palace previous to the great opening concert. The imperial choir, by far the largest body of singers ever mustered at the Crystal Palace, will be supported on this occasion by the Queen's Hall Orchestra, the festival orchestra, members of the London Stock Exchange orchestra, the Alexandra Palace orchestra, the festival military band and the Crystal Palace military band and representatives from other London orchestras.

DIAGNOSIS BY TELEPHONE

Physicians Listened to Woman's Heart Beats 100 Miles Away.

London, May 6.—A test that was carried out today shows it is possible to diagnose heart troubles by telephone a distance of 100 miles. The experiment was conducted between Mr. Milne's home on the Isle of Wight, where the seismologist and four physicians, using an ordinary telephone, listened interestedly to the beating of a woman's heart in London. A stethoscope, held over her heart in the familiar manner, was attached to a telephone recently invented by Sydney Brown, by means of which sounds are magnified.

MINERS ENTOMBED IN BURNING MINE

One Hundred and Twenty-Five May Have Lost Their Lives in Alabama.

Palos, Ala., May 6.—One hundred and thirty-five miners are entombed as the result of an explosion in mine No. 3 of the Palos Coal and Coke Company at Palos, 20 miles from Birmingham.

Forty-five are white men and 90 are negroes. The explosion occurred yesterday afternoon and is believed to have been caused by gas and coal dust. No great was the force of the explosion that Samuel Goodshy, a rural free delivery mail carrier, who was walking on the railroad track 20 yards from the mouth of the mine, was instantly killed, his body being almost hurled to a crisp by the roll of flames that shot out of the mine. He leaves a wife and ten children.

Tess A. D. Lightner, general agent of the Palos railroad, rushed a number of physicians and mine operators and others on a special train to Palos. Rescue work was futile, as gas helmets were brought into use, but a cavern a few hundred feet in the mine impeded the passage of air.

WASTE MONEY ON FUNERALS

Chicago Club Undertakes to Educate the People.

IT IS A HARSHIP ON THE POOR

Club May Agitate for Legislation to Put a Limit on Undertaking Expenses.

Chicago, May 5.—A protest against unnecessary expense of funerals, together with a recommendation for a committee to devise a plan for educating all classes against a desire for elaborate burials, was the subject of a report by a special committee of the city club.

The committee has spent several weeks investigating the cost of funerals and reasons and conditions for making this expense higher than necessary.

That the cost of burial does cost an extreme hardship on those least able to afford it and is incurred at a time when a person is in the poorest material condition to protect himself is said to be the purpose of the report. It is said also that a plan may be devised to seek legislation placing a limit on the cost of undertaking work.

"There is no question that undertaking and burial expenses are high and work a tremendous hardship on the poor," said Mr. Smoot, "although the investigation thus far does not show the undertakers are so much to blame as the poor people themselves."

"It is sure that they are in a position to be fleeced and in some cases I have found it is. The father who has lost his daughter goes to an undertaker and makes a contract for the burial. He is in no condition to make a contract that will protect himself."

"The undertaker agrees to bury the body at a certain figure, but the next day visits the father and puts up a special plea that insurance cash from friends be used to give the daughter a more fitting funeral than really can be afforded. The father goes into debt and must struggle for years to pay a bill which he received no real value."

GREAT STOCKTAKING SALE

at the

Hudson's Bay Stores

Bargains that will make this Store Busy with Busy Shoppers

WE ARE now in the midst of Stocktaking. It is therefore, to use an expression more forceful than grammatical, "Up to Us" to make a complete clearance of many lines of goods before 10 o'clock on Saturday night, for we have decided that they shall not be entered upon the stock sheets.—Stocktaking with us, is very much like spring cleaning with you; it means a straightening up of stock and a general clean-up throughout the store. Such powerful price persuaders as we are offering on Saturday, make it worth your while coming miles for. The savings are really too good to be missed.

SATURDAY IS THE DAY

SATURDAY IS THE DAY

Extra Special Values in Men's Footwear

The best in the world

Great Clearance Sale of Ladies Suits

We have received instructions from Headquarters that not a Suit is to be taken into stock; everyone must go regardless of profit or loss. There are just three weeks for us to bring about this result. Many of these Ladies' Suits have practically only just been opened up having been delayed in shipping; however away they go with the rest on Saturday. Don't delay a moment, be here early and secure the pick.

Ladies Suits, all new spring styles. Reg. \$22.50, \$25.50, \$27.50. SALE \$19.75

Ladies Suits, new spring styles and many of them exclusive. Regular \$30.00, \$32.50, \$35.00, \$37.50 & 40.00. SALE PRICE \$25.00

Extraordinary Values in Fine Dress Muslins

45c and 50c values for 33c

This is an opportunity which should not be missed. There will sure to be a big rush for these, not only because of the price, but because they are seasonable and just what are wanted at the right time. We don't look to have a yard left by the time the store closes on Saturday night. They are Muslins of the finest quality, almost equal in softness and effect to silk organic muslins; the designs and colorings are simply lovely, principally in stripes and scrolls. For 33c Saturday.

(See window 3rd Street)

Economy News to Catch the Mother's Eye

Big Savings on Clothings for the Boys

A series of most attractive values are presented for Saturday shoppers. We are devoting our efforts this week by rounding up a number of extra special values in Boy's Clothing, etc., which we know will draw a big crowd and bring about the result we hope to attain, viz.—lower our stock considerably. Extracts from the Memorandum and Articles of Association

1. Each Director of the Company is required to hold at least one (1) share in the company's capital.

2. The subscribers of the Memorandum of Association will be the first Directors of the Company. It is intended to have permanent directors elected at such time as may be conveniently done after the organization of the Company.

3. Owing to the stringent requirements of the Company's Ordinance, the directors have thought it advisable to make the requirements regarding the minimum subscription upon which they may proceed to allotment only nominal. It is therefore provided in the Articles of Association that the minimum subscription upon which the directors may proceed with allotment is ten (10) per cent. of the shares offered to the public and of this amount there must be paid up on application at least five (5) per cent. of the nominal amount of the share. It is, however, the intention of the directors that no allotment of shares shall be made until an amount of capital is subscribed which will be ample to place the Company's undertaking on a sound basis.

4. It is intended to issue to S. H. Smith and E. Chamberlain, as representing the syndicate who are promoting the Company, five hundred (500) fully paid up common shares in the capital of the Company in payment of the assignment to the Company of the two agreements referred to in paragraph (5) hereof and in payment of services of the promoters in organizing the Company. This Syndicate includes, besides Messrs. Smith and Chamberlain, Messrs. John A. McDougall, A. Driscoll, George B. McLeod, H. H. Richards and Howard Stutchbury. The said shares to be issued to Messrs. Smith and Chamberlain will be distributed in equal proportions among the members of the Syndicate.

Essential Contracts

5. Under a certain agreement for sale dated the 15th day of January, A. D. 1910, made between A. M. Nanton, Broker, and J. H. Munson, Barrister, both of the City of Winnipeg, in the Province of Manitoba, as vendors and J. H. Chamberlain, Gentleman, and S. H. Smith, Official Assignee, both of the City of Edmonton, in the Province of Alberta, as purchasers; the vendors agree to sell to the purchasers all of Block 3, Strathcona, save and except the right-of-way of the Canadian Northern Railway, according to a plan of Strathcona in the Province of Alberta, excepting therefrom the portion of the said land, including, within, upon or under the said land, which said plan is registered in the Land Titles Office for the North Alberta Land Registration District as plan "17," for the sum of ten thousand dollars (\$10,000) upon the terms and conditions in said agreement particularly set forth. It is intended that the Company shall accept an assignment of this Agreement for Sale and shall assume the whole purchase price. Under a certain Agreement of Sale, dated the 19th day of February, 1910, made between The Vogel Nelson and Paving Company, Limited, as vendors, and the said E. Chamberlain and S. H. Smith, as purchasers, the vendors agree to sell to the purchasers, all that portion of R.L. 17 of the Edmonton Settlement lying to the west of the right-of-way of the Edmonton, Yukon and Pacific Railway, and bounded on the north by Eleventh Ave. North, produced easterly through the said R.L. 17 and bounded on the south by Eighth Ave. North, produced easterly through the said lands and containing approximately two (2) acres, more or less, for the price or sum of one thousand dollars (\$1,000) per acre, payable upon the terms and conditions in the said agreement set forth. It is intended that the Company shall accept an assignment of this agreement and shall assume all the obligations of the purchasers under the said agreement and shall assume the full purchase price of the said lands.

6. It is intended that the company will assume the payments under the agreements referred to in paragraph 5 hereof amounting in all to approximately \$12,000, with interest as provided in the said agreements.

7. The Articles of Association of the Company provide that if at any time the Company shall offer any of its shares to the public for subscription the Directors may pay a commission for securing subscriptions to the said shares not to exceed ten per cent. on the shares in each case offered.

8. The cost of the land required for the Company's purposes will be approximately \$12,000, and it is estimated that the manufacturing plant will cost about eighty-eight thousand dollars (\$88,000).

9. The promoters are to receive shares as set forth in paragraph 4 hereof.

10. It is proposed to offer for sale to the public 500 preference shares in the Company's capital. Of this amount it is expected that about \$20,000 will be required for the establishment of the Company's works, leaving about \$5,000 as working capital.

11. Except as set forth in paragraphs 5 and 6 hereof, no contracts have been made affecting the Company.

12. The Auditors of the Company are "The H. P. Sandeman Company, Limited."

The Prospectus of the Company was filed with the Registrar of Joint Stock Companies, April 30th, 1910.

REPORT OF MR. J. H. HODSON

For nine years manager and a director of The Hatcher Station Brick and Terra Cotta Company, Ltd., of Leithborough, England.

Edmonton, January 30, 1910.

To the Western Clays, Limited:

Dear Sirs:—Herewith I beg to submit my opinion of the clay deposit contained in your property, Block G, R.L. 17, Strathcona.

I have made several and severe practical tests, the resulting samples I submit for your inspection. The small sewer pipes have taken a good glaze and are thoroughly vitrified, practically non-absorbent and of a very high tensile strength; equal, if not superior to any pipe manufactured.

I also submit small blocks of clay from surface, which demonstrated the color and texture of that portion of the clay which, while being of good quality, would to some extent deteriorate the quality of pipes if used in them. I therefore recommend that the first step in developing the property should be the installation of a brick plant, of the type known as the semi-dry or plastic dust process, which will enable you to place upon the market a quality of brick far superior to any now being made in this vicinity, and at such cost as would defy competition.

With this nucleus plant, most of which would form part of the complete plant for the production of sewer pipe and pre-firing material, it will be quite possible, without calling further capital, to complete the scheme of development.

The location of the property with a large and growing market close at hand, excellent transportation facilities and a coal mine within a few yards, practically at the kiln side, is ideal in every respect.

After an exhaustive examination of the district, I am of the opinion that competition is not to be feared, as where similar deposits of clay occur, it is a scarce commodity, and the large amount of useless material overlying it.

I have had years of experience in the production of clay goods of various kinds and am familiar with the attributes of a very wide range of clays. I also thoroughly understand the essential conditions under which propositions of this nature can be successfully carried on.

In conclusion, I give me pleasure to state that it is my opinion that the development of this property will be an exceedingly successful and profitable undertaking.

(Signed) J. H. HODSON.

AN INVESTMENT TO YIELD AN HUNDRED FOLD

There are now offered for Subscription 500 Preference Shares of \$100 each.

—Payable ten dollars (\$10) per share on application, (five dollars per share on allotment, twenty-five dollars per share at 3 months.

NOTE—A large block of preference shares is being subscribed for by the Directors, S. H. Smith, Geo. B. McLeod, A. Driscoll and Jno. A. McDougall.

Rights of Preference Shareholders

1. A cumulative preferred dividend of 10 per cent. per annum, that is, to a dividend of ten per cent. before the Common Stock receives any dividend at all.
2. Each year, after the payment of a dividend of 10 per cent. on the Preference Stock and 10 per cent. on the Common Stock, the Preference Shares rank equally with the Common in any further distribution of profits.
3. In the event of a winding-up, the Preference shares to receive their face value together with all 10 per cent. dividends (whether declared or not) before the Common Stock holders receive anything.

The Plant will be sufficient to pay over one hundred per cent, per annum on the capital now issued and offered for subscription.

The demand for the products of the company is ample to keep the plant running at full capacity.

Over 90 p.c. of the Sewer Pipes now used in Canada are imported from the United States, subject to 33 p.c. Duty

COMPARATIVE ANALYSIS OF WESTERN CLAYS PROPERTY AND STOURBRIDGE FIRECLAY. (The most celebrated fireclay in the world.)

	Western Clays	Stourbridge
Silica	65.0	65.10
Ferrous Oxide	2.0	1.92
Aluminium	17.8	22.20
Calcium	1.8	1.4
Magnesium	1.4	1.8
Sodium and Potassium	3.1	1.8
Oxide	7.1	9.02
Combined water, etc., etc.,	100.0	99.64

The analyst of these Western Clays at the University of Toronto adds to his figures:

"Judging from the chemical analysis I would say that the clay would be excellent for the manufacture of vitrified brick."

(Signed) M. C. HOSWELL.

These figures give a net profit on the two plants of \$12,000 per annum.

THESE SHARES ARE ON OFFER FOR 3 WEEKS ONLY

REPORT FROM R. H. KNIGHT, C.E.

Mr. R. H. Knight, of Messrs. Driscoll and Knight, writes (in part) as follows:

Sirs:—I herewith submit the following report upon examination of your clay lands situated in Block G, R. L. 17, Strathcona.

The object of my examination was to determine the amount of clay that was suitable for the manufacture of sewer pipes. I began this work on January 10th and continued until January 17th. During this time I had two gangs of men boring testholes on the property. A complete record of the borings has been kept. Samples were taken from many holes and from these samples I have had sewer pipes made, which I submit herewith. I consider that these holes are a fair average of the clay on the property lying above a depth of 15 feet. Below this depth the clay is of a better quality, for the quality improves with the depth. From the information gained from the various borings, which number 35, I estimate the strata to have a minimum thickness of 40 feet. The maximum thickness might be much greater. Basing my calculations upon a minimum thickness of 30 feet I estimate that there are 77,400 cubic yards of good clay available on your property.

Yours truly, (Signed) R. H. KNIGHT.

APPLY FOR SHARES AT LUNDY & McLEOD, 118 McDougall Avenue.

To the Directors of Western Clays Limited, Edmonton.

Dear Sirs:—

I hereby request you to allot to me preferential shares of the par value of \$100.00 each in Western Clays, Limited, and now enclose in favor of the Company for \$....., being a deposit of \$..... per share on preferential shares in the said Company.

And I hereby agree to accept the same or any smaller number that may be allotted to me, and to pay a further sum of \$..... per share on allotment and the balance at the call of the Directors.

And I hereby authorize you to register me as the holder of the said shares.

Dated at this day of A.D. 19.....

Why this Clay is so Valuable

Everyone knows how one kind of brick will stand the weather and time much better than another; why is this so? It is not generally due to faulty manufacture (though it may be) but it is caused by the great difference between the different deposits of clay from which the bricks are made. One ferret deposits of clay from which the bricks are made. One or factor of buildings, whilst another deposit will make, even under the best manufacturing conditions, one's inferior bricks suitable for filling the interior of walls and places where there is no exposure to the weather. Western Clays, Limited has the best possible clay for first class "front" bricks.

This Clay will readily Vitrify

Vitrifying is the term applied to hardening by fire, somewhat similar to the term tempering in the making of steel. Few clays will vitrify properly, on account of the absence of the necessary iron, which fuses in right proportions with silica and alumina. One of the best known clays in the world is the Stourbridge (England) fireclay, an analysis of which is given in this announcement. If you carefully compare the results with the analysis of the clays in the property of Western Clays Limited, you will see how closely the two are alike.

No other Vitrifying Clay in this District

After exhaustive examinations of clays in this neighborhood, the experts employed by Western Clays Limited have come to the conclusion that no other clay properties exist around here, except at such a great depth as to make the winning of it too costly for practical purposes. Therefore this company will have a monopoly of this class of clay and its products, the only competition being from Minnesota, U.S.A., under a 33 per cent. duty. It has an added value on account of the presence right alongside of all the coal required for kilning, and the close proximity to transportation by either rail or water.

Comparison with other Works

In many works of this nature (making vitrified pipe, etc.) the raw clay has to be loaded onto cars, carried by rail from 9 to 40 miles and unloaded again, all of which expense is entirely eliminated with Western Clays' Limited property.

Property worth Seven Dollars for One

—In places where this preliminary freighting has to be done it is customary to pay up to \$1.00 per cubic yard. This clay has, according to Mr. Knight's estimate, at least 77,400 cubic yards, so that it is worth in the raw state at least \$77,400, and all the capital that will call for interest or dividends is \$100,000, viz: the present issue, and even of that only 50 per cent. of the Preferred Stock is being called up. Thus again, the estimate of 77,400 cubic yards is only with a depth of 30 feet and it is known to extend much deeper; but how much it is impossible to tell, nor will it be necessary to enquire for many years.

Concessions from Strathcona City

The Company is in receipt of a letter from the City of Strathcona stating that subject to its securing certain legislation which will enable the Council to deal with the matter or subject to the vote of the electors if this legislation is not granted, the Council are willing to approve of an agreement granting concessions to the Company on the following basis:

1. All concessions to be conditional upon the continued operation of the Company's works on Block G or the adjoining land.
2. A fixed assessment of the Company's land and plant, for a term of ten (10) years at Forty-one hundred dollars (\$4,100).
3. The concessions in the matter of taxation shall not apply to any portion of the Company's land which may be used as sites for private dwellings.
4. The Company to have a fixed rate for light at 8c per K.W. hour and for water at 10c per 100 cubic feet.
5. The Council will take the necessary steps to close and transfer to the Company under title 39, Section 5, of the Charter of the City of Strathcona, as soon as operation commences the street allowance lying immediately east of Block G.
6. The Company to agree to permit a passable road-way for the use of the general public across the Company's property in a convenient location.
7. The Company to grant the City a free right-of-way for sewer or sewers if needed.
8. The Council will extend water-mains and the electric-light system to the Company's property at once, and sewers as soon as that portion of the City is served with a sewer.

Net sales\$14,400

The plant to be installed will easily produce 6,000 gross sale of\$8,000

Allow for waste and breakage\$6,000

Net sales\$14,400

The plant to be installed will easily produce 40,000 bricks per day, which gives at \$9.00 per 1,000, a gross sale on 200 working days of \$72,000.

(This is at the full price of common brick, whereas most of these from this clay should be "fronts," the price of which is \$20 per 1,000.)

The Day in Strathcona

A well attended and most important football meeting was held last evening at the Strathcona House. There was some discussion regarding the advisability of forming a team to enter in the Twin City League or of forming a separate league in the University City. It was eventually decided that the latter course would prove the better. Accordingly officers were elected as follows: Hon. Pres., Mayor Dugan; president, A. C. Curtis; vice president, R. Ferring; secretary, W. Reid. The executive was to be composed of these officers together with J. Forsythe, who is to represent his own team, the "Cyclones." Four teams have entered into the competition, viz. The Collegiate, the University, the Whirlwinds and Cyclones. The latter two have as managers Du Train and Forsythe, respectively. The managers are to sign up their players before Wednesday next, when the first executive meeting will be held. At this meeting the schedule will be arranged.

The competition will be for a silver cup, which is to represent the city league championship and will be competed for annually. An entrance fee of \$5 is levied on all teams entering the competition.

W. E. Rankin of Millet is in the city for a few days.

Time table of the final examinations in arts of the University of Alberta:

May 18—9 to 12, psychology and logic; 2 to 5, mathematics; 2 to 4, philosophy III, (History).

Thursday, May 19—10 to 12, Greek I; Greek II; authors; 2 to 4, Latin A, Greek I, Greek II, composition; Latin A.

Friday, May 20—10 to 12, French I, French II, German I, German A, Authors; 2 to 4, French I, French II, German I, French A, composition.

Saturday, May 21—9 to 12, English I, English II; 3 to 4, English comp.

Wednesday, May 25—10 to 12, Latin I, Latin II, authors; 2 to 4, Latin I, Latin II, composition.

Thursday, May 26—10 to 12, physics I, history II; 2 to 4, philosophy III; ethics.

Mr. J. E. Carmichael, who has been attending Queen's University, fourth year medicine, returned home yesterday and will remain here during the summer.

Where the Good
 Clothes
 Come From

The Sons of England "A" team will play the "B" team on the 23rd street grounds Thursday, May 12th, at 7 o'clock.

Mrs. A. Whitmarsh wishes to announce that she is now open for business, as she has just returned from attending her daughter who has been ill.

At 2.30 a.m. today a fire broke out in the power station. The roof of the boiler house caught fire in some unaccountable manner, but was quickly extinguished before any damage could be done.

Owing to the rapid growth of the north end of the city the Presbytery has provided a assistant for Rev. J. E. Dugan for the summer. He is Rev. Mr. Corbett, M.A., of McGill University, Montreal. Mr. Corbett will preach in Erskine Church in the morning and in the North Edmonton church at 3 o'clock in the afternoon.

A fire occurred last evening about 8 o'clock at the home of Mr. W. J. Jackson, the jeweller, on Second Avenue N. The family was absent from home when smoke was seen issuing from the windows and roof. The alarm was given and the brigade was soon on the spot. The fire was soon under control and the damage done was chiefly owing to the smoke and water.

The formal opening of the Knox Presbyterian tennis court will take place on Saturday afternoon. The grounds are in good shape and a good time is expected. An invitation was extended to all members and all prospective members of the club.

Special sale of sheet music Saturday, May 7th; 500 copies at 15c per copy or two copies for 25 cents. The Masters Piano Co.

Big Bush Fires in B. C.

Nelson, B. C., May 6—Tremendous bush fires are raging at Salmon. The Kootenay Shingle Company telegraphed to the government agent to send two hundred men to help fight the flames.

Marriage Licenses issued. Jackson Bros., jewellers.

"A Knight for a Day"

There would be no doubt about the fact that the large audience at the Empire last night thoroughly enjoyed "A Knight for a Day." The company was a large one, the chorus was sprightly and several of the principles had excellent voices. The staging was as good as has been seen in Edmonton.

We have given up looking for an intelligible plot in a musical comedy. The story that was unfolded last night was shadowy (note the "or") to an unusual extent and most people are still wondering what it was all about. Even the title was pretty much a mystery. But what does it matter so long as the comedian made you laugh and the various musical numbers passed off all right? Mr. Conley, as Jonathan Joy, the water masquerading as a lawyer, was the life of the evening, being well supported by Florence Simoot, as Tillie Day, Jonathan's travelling companion. The cloyment scene was particularly funny as were some of those after Corsica was reached. The best songs fell to Miss Heimerman as Mariel Oliver, who, on the whole, did them justice. Her duets, that with Mariel, "Life is a Sea-Saw" and that with Joy, "The Little Girl in Blue" were the popular numbers of the evening. The opening chorus in the second act "Corsica" is also well worthy of mention.

Special sale of sheet music Saturday, May 7th; 500 copies at 15c per copy or two copies for 25 cents. The Masters Piano Co.

TENDERS

TENDERS are invited for the erection of a stable and wagon shed. Plans and specifications can be inspected at the office of the manager of the Hudson's Bay Stores.

All tenders to be submitted by the 14th inst. and the lowest will not necessarily be accepted.
